

Self Raising and Conventional Monopoles

Our monopoles are customer engineered to meet your unique needs and we offer a range of assembled foundations and raising systems to cut installation time and costs.

Why ARE?

- Custom design and best-in-class engineering using the industry's most in-depth fatigue and frequency analysis
- American-owned manufacturing facility in Shanghai is ISO 9001 certified for quality assurance (local manufacture available)
- Products ship globally from world's lowest cost center for logistics
- American-grade GR 50/55/65 low-silicon steel ensures strength and durability
- American Welding Society (AWS) D1.1 and CSA W47.1 certified welders for best-in-class construction

Self-Raising and Conventional Monopoles

Versatile Monopoles for Remote, Rooftop and Temporary Sites

ARE monopoles deliver extraordinary performance and value for telecom sites. We engineer monopoles to each project's needs and manufacture to the highest quality standards. Thousands of monopoles in the field worldwide are testament to the trust customers place in ARE Telecom.

- **Value Engineering:** We custom design to meet each project's load and height requirements for best performance and lowest cost
- **Simple Installation:** Rapid field assemble, with option for same-day foundation and monopole installations, dramatically cuts install time
- **Logistics:** We manage the details to deliver units on time, anywhere
- **Support:** All products are warranted and supported by our experienced engineering and customer service teams.

Specifications	
Height	Up to 49 m (160 ft)
Material	Galvanized American grade GR 50/55/65 low-silicon steel
Assembly	Slip joint or flanged
Raising	Crane-lift or ARE motorized self-raising system
Foundation	Conventional or concrete-free with ARE Assembled Foundation Systems (surface or buried)
Shipping	Single units up to container quantities
Warranty	Five Year
Options	2kW & 10kW solar arrays (pole mount or freestanding) ARE Motorized, Hydraulic or Gin Pole raising systems

"Their monopoles are the finest we have ever received from any supplier."
