

ARE Telecom Adjustable Antenna Mount for Broadband & Small Cell

Product #: AAM-0500N

OVERVIEW

ARE Telecom's Adjustable Antenna Mount is designed for broadband customers who need a rugged, adjustable antenna mount.

PRODUCT

Installed with through bolts or chain, the AAM-0500 can easily mount on steel or wood poles.

Rotating 20° both right to left and forward to back, our mount design allows for a level and straight antenna installation on nearly any tapered and misaligned pole.

MSRP

Adjustable Mount and Pipe - \$200 per unit FOB

Chain and Bracket - \$39
